...a total solution

COMPANY PROFILE

For over fifteen years HMF have been providing practical working solutions for all types of industries. Originally, the company specialised in the design and manufacture of mezzanine floors including mezzanine floor refurbishment projects. Presently, HMF operates both as a project management company and as a main contractor delivering high quality, cost efficient interior refurbishment projects and turn-key storage equipment projects.

HMF offer a diverse range of products and services to meet all the needs within the internal working environment. The company's competencies

specialise in increasing business efficiency,

ranging from the correct design and installation of

office space planning

schemes to the design and installation of fully integrated operational logistics solutions for the warehouse.

MISSION STATEMENT

HMF view their customers as their most important asset and all efforts are focused to increasing their business performance. This philosophy has produced a company with a sound reputation constantly committed to delivering customer value.

A reputation that has been the envy of its competition nation-wide.

A National Supplier of

COMPLETE REFURBISHMENT PROJECTS

- ◆ **Racking and Shelving** HMF are in partnership with Dexion who are the UK's largest manufacturer of materials handling equipment, giving HMF the ability to solve most logistical needs with the back-up of a proven and large product range.
 - ◆ **Conveyor Systems** HMF have the facility to design and install package, pallet and gravity/powered conveyor systems to meet the needs of production lines, warehouses and retail stores.
 - ◆ **Building Works** HMF have their own in-house building design team, enabling the company to offer a competitive turn-key solution.
 - ◆ **Partitioning** HMF supply and install a wide variety of office and warehouse partitioning systems to satisfy most performance criteria such as: half hour and one hour fire rating, single and double glazed window units complete with integral blinds.
 - ◆ **Suspended Ceilings** HMF provide a wide range of suspended ceiling systems to suit the performance needs of most internal environments from laboratories to large open plan offices.
- 
- ◆ **Mezzanine Floors** HMF provide a free-standing cost effective way of increasing your storage or office areas without creating the inconvenience of either moving or extending your existing premises.
 - ◆ **Lighting and Power** HMF design and install lighting and electrical installations to NIC/IEE standards to suit all working environments from warehouse high bay lighting to sophisticated office schemes.
 - ◆ **Air Conditioning** HMF specialise in creating the right internal conditions of comfort. Research has proved that creating the right environment not only aids employee retainment but also increases productivity.
 - ◆ **Office Furniture** HMF have a comprehensive range of office furniture available, ranging from the executive suite to the open plan office area. HMF offer a space planning service to accommodate the requirements for most office environments.

THE TOTAL PROJECT MANAGEMENT PACKAGE

CUSTOMER BRIEF

HMF assists by providing expert advice and understanding when considering the client's needs at this stage. Our objective is to deliver the right solution, on time and at the right price.

DESIGN

HMF provide computer aided, state-of-the-art drawing facilities to help their clients choose the best solution for their particular needs.

Tailor made logistics solutions are best appreciated with the aid of professional presentation. HMF does not cut corners when it comes to design. All the client's needs from safety to ergonomics are considered. Local Authority Building Regulations Applications and CDM (Construction Design Management) regulations are undertaken on behalf of the client at this stage.

PLANNING

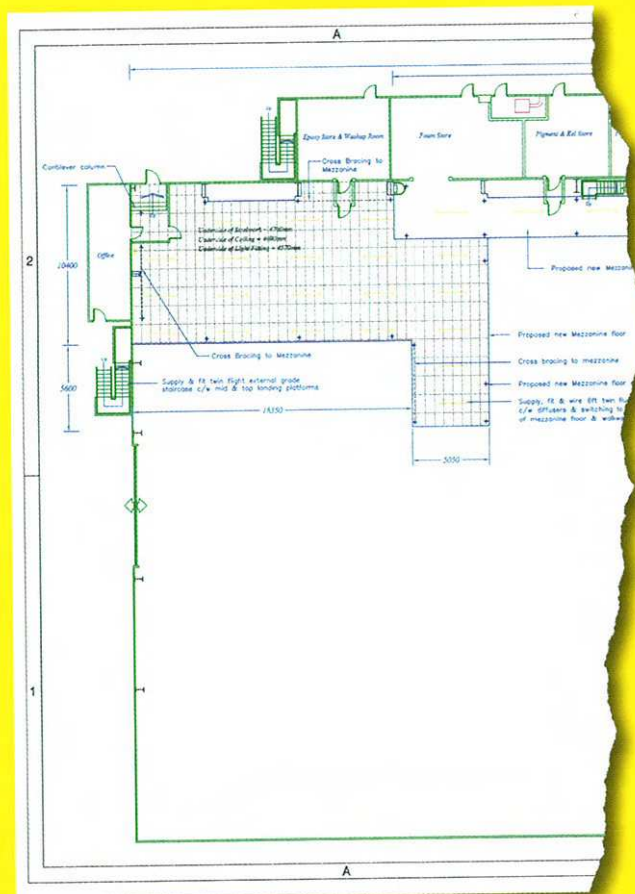

When it comes to planning the implementation of project work, HMF provide a clear and concise schedule of works. From inception to completion, HMF help you to plan to minimise disruption to your operations, whilst work is under way.

IMPLEMENTATION

HMF only implement work with their own experienced fitters who have been with the company since its beginning - a reliable workforce who are consistently audited to facilitate HMF's continuous improvement programme. This ensures a consistent high standard of workmanship which is the envy of our competition.

COMPLETION

Total Customer Satisfaction is our aim and nothing less will suffice. As a result of our customer feedback process, we have a proven record of providing solutions that consistently meet and exceed our customers' expectations.
