

HMF

Automotive

Refurbishing the automotive industry

For over 35 years HMF have been refurbishing the automotive industry with practical working solutions throughout the business. From creating innovative designs for the sales and showroom areas to increasing business efficiency and space utilisation within the parts department, HMF offer a diverse range of products and services to meet most requirements.

HMF have in house resources including a team of designers with state of the art computer aided design technology to allow the company to provide an efficient and effective design service. Along with a team of project managers, HMF are able to provide the full turn-key solution; which means that you only need to deal with one source of communication. This not only saves costs on consultation fees but also accelerates the project from inception to completion.

The illustrations shown in this brochure are exclusive projects undertaken by HMF and cover a variety of dealerships. The Total Project Management process shown to the right is to illustrate the unique service we provide.

CUSTOMER BRIEF

HMF assist by providing expert advice and understanding when considering the client's needs at this stage. Our objective is to deliver the right solution, on time and at the right price.

DESIGN

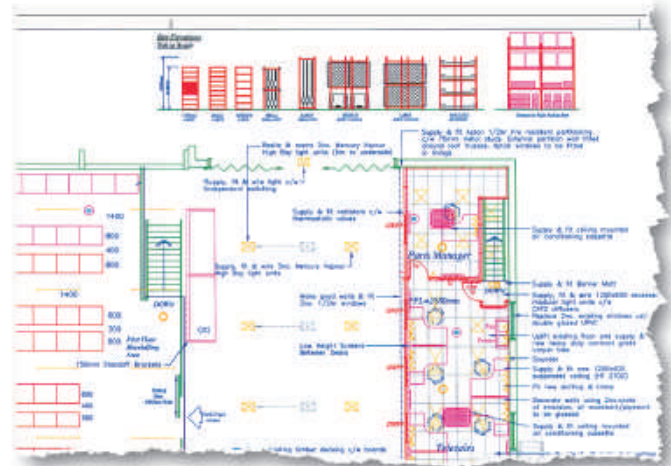

HMF provide computer aided, state of the art drawing facilities to help its clients choose the best solution for their particular needs.

PLANNING

When it comes to planning the implementation of project work, HMF provide a clear and concise schedule of works. From inception to completion, HMF help you to plan to minimise disruption to your operations, whilst work is under way.

COMPLETION

Total Customer Satisfaction is our aim and nothing less will suffice. As a result of our customer feedback process, we have a proven record of providing solutions that consistently meet and exceed our customers' expectations.
